

WMS SKU Architecture & Form Master

4-Zone Operational Warehousing Standard & Metadata Classification

STANDARD SOP

OPERATIONAL SKU SYNTAX STANDARD

[ZONE] - [SEQUENCE] - [FORM] / [REGULATORY] / [DIET]

1. Zone Prefix OS, LQ, IN, TP (Pick routing & binning)	2. Sequence ID 4-digit zero-padded index (0001–9999)	3. Form Code 3-letter standardized physical form token	4. Compliance Tags DRG / NUT & VEG / NVG / NA attributes
--	--	--	--

PHYSICAL WAREHOUSE ZONES (PRIMARY HANDLING)

Oral Solids Zone Dry ambient storage, high-density bins. Minimal spill risk. Scope: Tablets, Capsules, Softgels, Granules, Bulk/Protein Powders, Sachets. ZONE: OS	Liquids & Drops Zone Secondary containment, lower-tier shelving to protect dry stock from leaks. Scope: Syrups, Suspensions, Dry Syrups, Oral Drops, Eye/Ear Drops, Nano Shots. ZONE: LQ
Injections & Sterile Zone High-value, breakable glass ampoules/vials. Secured access. Scope: Injections, Infusions, Respules (Aerosol/Nebulizer). ZONE: IN	Topicals & External Zone Non-ingestible quarantine to avoid cross-contamination with ingestibles. Scope: Creams, Ointments, Gels, Oils, Soaps, Washes, Roll-ons, Sprays, Oral Care. ZONE: TP

MASTER CATALOG: ZONE OS & ZONE LQ FORM MAPPING

ZONE	PRODUCT FORM	FORM CODE	REGULATORY SCOPE	EXAMPLE MASTER SKU
OS (Oral Solid)	Tablet	TAB	DRG NUT	OS-1001-TAB/DRG/VEG
OS (Oral Solid)	Capsules	CAP	DRG NUT	OS-1002-CAP/NUT/VEG

BACKEND DATABASE SCHEMA MAPPING

For ERP and WMS operations, the composite SKU string maps into discrete relational columns to allow indexing without regex overhead.

SKU SEGMENT	DB FIELD	DATA TYPE	WMS & BUSINESS LOGIC
ZONE-####	wms_bin_prefix	VARCHAR(7)	Direct routing to physical picking zone, rack, and level. Primary index for pick lists.
FORM	form_factor	CHAR(3)	Determines shipping package type (carton, bubble sleeve, bottle mailer).
REGULATORY	reg_category	ENUM(DRG, NUT)	Triggers GST rate, drug license checks, Schedule H1 logging, and pharmacist sign-off.
DIET	dietary_class	ENUM(VEG, NVG, NA)	Mandatory for FSSAI green/brown dot labeling and consumer marketplace filters.

Barcode Scanning Efficiency: Warehouse RF Handheld Scanners read 05-1001 for immediate picking confirmation, while the ERP background process automatically parses trailing metadata for inventory reconciliation and billing validation.
